

Dear Hiring Manager,

I am excited to learn more about the Global Wholesale Operations - Tax and Accounting Internship/Co-Op role at Scotiabank, particularly how I can contribute to a winning team and gain experience in tax treatments and compliance.

As a Computer Science student at the University of Waterloo, I am eager to apply my skills in a real-world setting. My experience as an Applications Development Intern at Rheinmetall in St-Jean, Quebec, has given me a solid foundation in Power Apps, SQL, and Power Fx. I also developed features for a Vue.js web application serving over 10,000 staff members, including new pages and UI components. Additionally, I worked on a .NET backend implementing SignalR Hubs and RESTful APIs, utilizing Microsoft Azure DevOps for version control and task management.

In my previous role as a Digital Transformation and Software Testing Intern at Ericsson in Ottawa, Ontario, I gained experience with monitoring Jenkins software pipelines and troubleshooting Kubernetes clusters. I also created Grafana dashboards for tracking performance metrics and identifying bottlenecks in telecom infrastructure.

I am particularly drawn to the POS Ecosystem Web and Mobile project, where I developed a React web dashboard for merchant management and a React Native mobile point of sale app for real-time checkout and product scanning. I also implemented Python machine learning models and web scraping for sales and pricing recommendations using Celery workers and Redis for processing.

I am confident that my strong analytical skills, attention to detail, and ability to learn quickly will enable me to succeed in this role. I am excited about the opportunity to contribute to an inclusive and high-performing team and learn about the tax treatments and compliance procedures at Scotiabank.

Thank you for considering my application. I am eager to discuss this opportunity further and learn more about the role and the team. I am confident that my passion, strong work ethic, and willingness to learn will make me a valuable asset to the team.

Sincerely,  
Pranjwal Singh
