I am excited about the opportunity to contribute to Deloitte's IT Audit & Assurance team, particularly in the Analyst - IT Audit & Assurance role, as advertised. As a student at the University of Waterloo, studying Computer Science with a focus on Digital Hardware, I am confident that my academic background and technical skills align with the requirements of this position.

Throughout my academic journey, I have been exposed to various technologies and tools, including Power Apps, SQL, and Power Fx, through my internship at CJCR, Department of National Defence. This experience has not only honed my technical skills but also instilled in me a passion for learning and a desire to apply my knowledge in real-world settings. I am particularly drawn to the IT Audit & Assurance practice at Deloitte, as it offers an opportunity to work on complex IT projects and develop my analytical and problem-solving skills.

My experience with POS Ecosystem Web and Mobile, a project I have been working on since 2025, has given me a unique perspective on the intersection of technology and business. I have developed a React web dashboard for merchant management, including onboarding, inventory, products, and orders, and a React Native mobile point of sale app for real-time checkout and product scanning. These projects have not only deepened my understanding of software development but also taught me the importance of collaboration, communication, and attention to detail in a professional setting.

I am excited about the opportunity to bring my skills and experience to Deloitte and contribute to the success of the IT Audit & Assurance team. I am confident that my passion for technology, my strong work ethic, and my ability to learn quickly will make me a valuable asset to the organization. I am eager to learn and grow with Deloitte and contribute to the company's mission to build a better future by accelerating and expanding access to knowledge.

Thank you for considering my application. I am excited about the opportunity to discuss my qualifications further and learn more about the IT Audit & Assurance team at Deloitte.
